MYCON General Contractors, Inc. Promotes Jason Meuth to Vice President

Dallas, Texas, July 25, 2023 – Dallas-based MYCON General Contractors, Inc. (MYCON) has promoted Jason Meuth, CRRP to Vice President, who has held the role of project director with heavy involvement in MYCON’s retail projects. As Vice President, Meuth will put an emphasis on his focus of the retail market, find new opportunities, and maintain existing client relationships.

“It is no secret that Jason embodies our values and drives our business with a strategic mindset,” said Charles R. Myers, President and CEO of MYCON. “He prioritizes operational excellence by guiding, mentoring, and developing the heartbeat of our business - our extraordinary people - making him an essential contributor to MYCON’s future success.”

Meuth has been known as an integral part of MYCON for over a decade, advancing through positions of higher responsibility in both operations and business development. Throughout his tenure, he has exhibited exceptional leadership abilities and innovative thinking, resulting in successful projects for MYCON’s clients. He has been instrumental in the growth of the firm’s retail sector and plans to continue the expansion of the retail market outside of the DFW area. Along with retail, Meuth has been an integral part of maintaining the company’s relationships with self-storage clientele and will focus on expanding the footprint in self-storage space both regionally and with clients.

“Jason has always embodied the idea of the ‘fireman,’ he could run into a burning building with duct tape and a paper clip and would be able to put the fire out,” says Ryan Stoll, Partner and Vice President. “He always manages to get the impossible done with almost nothing – that’s why he’s in this seat today. He sees every challenge as an opportunity for success rather than an opportunity for failure. “

Meuth received his Bachelor of Science degree from Texas A&M University in Construction Science before moving up to Dallas and joining MYCON in 2013. Prior to his time at MYCON, Meuth served in the United States Air Force. He is heavily involved with the Leukemia & Lymphoma Society’s annual Big Climb event in downtown Dallas, an effort to raise funds for blood cancer research. Meuth is part of ULI Dallas-Fort Worth’s Center for Leadership.
