MYCON General Contractors, Inc. Relocates Central Texas Office to Accommodate Firm Growth

College Station, TX, November 4, 2021 – Dallas-based MYCON General Contractors, Inc. (MYCON) purchased and completed the interior renovation of a 6,500-square-foot office building at 2501 Ashford Drive in College Station, Texas. MYCON's Central Texas office has moved into the new building, doubling the available space to accommodate anticipated growth with ample office/workstations and a large conference/training room, along with plenty of natural light, common areas, and outdoor space to foster camaraderie.

“It is humbling to see where we started six years ago,” said Richard Dubec, Partner and Vice President of MYCON. “When we established the Central Texas office, it was our office manager, five superintendents, and myself. Today we have 86 employees based out of College Station.”

MYCON celebrated the opening of their new office with a ribbon-cutting event hosted in partnership with the Bryan/College Station Chamber of Commerce. Approximately 80 guests, including College Station city officials, attended the event.

“I could not have asked for better partners and a better team,” said Charles R. Myers, President and Chief Executive Officer of MYCON, in his address to ribbon-cutting ceremony attendees. “Our people are at the center of what we do. We may have two offices, but we go out of the way to make sure we are one company.”

MYCON’s Central Texas office anticipates hiring an additional 10-15 professionals in 2022. It contributes much of its success to delivering exceptional results for our long-standing partnership with one of the largest retailers in the world.
